TRADE EFFLUENT MONITORING STATIONS

The Company's objective is to provide 'one stop' solutions for clients who require specialist trade effluent monitoring.

We can provide:

- Vee-Notch Weir Tanks
- Venturi Flume Chambers
- Magflow Installations
- pH/Turbidity Monitoring
- Wastewater Samplers
- Telemetry + SMS Text Alarms
- Civil Works
- Turnkey Installations
- HIRE equipment

Our 'all inclusive' service, together with the benefits of an experienced team of designers and engineers, means that we can find a solution to your effluent monitoring problem.
